

SERVICES OVERVIEW

SEARCH DIVISION

SUPPLY CHAIN & LOGISTICS

In many business and industries today, optimizing the supply chain and logistics strategy can make or break the profitability of the enterprise. Given the critical importance of these functions, recruiting top supply chain and logistics talent has become more competitive than ever, which is why company's turn to our team.

StevenDouglas Supply Chain and Logistics recruiting experts gain a deep understanding of our client's business needs and develop intelligent sourcing plans to streamline the process in order to make the best hiring decisions. Our recruiting experience extend into all operating areas in difficult-to-fill, time-sensitive mid-to-senior level management positions for middle market to Fortune 500 clients.

For successful supply chain and logistics recruitment, StevenDouglas works with companies through a consultative approach that brings understanding of their unique businesses, strategic and financial goals, and how we can help achieve milestones and resolve issues.
